Village Square By Edopia Online

Edopia Online is a project of **Edopia**, Pakistan's first democratic school, a school that respects children. We believe children learn best when they have control over their learning and when they feel safe.

Aligned with Edopia's vision to create learning spaces that truly belong to children, we introduce **Village Square**: an online members' club for children **aged 7-13**, providing them with the opportunity to learn together and explore disciplines that are not typically covered in traditional schools.

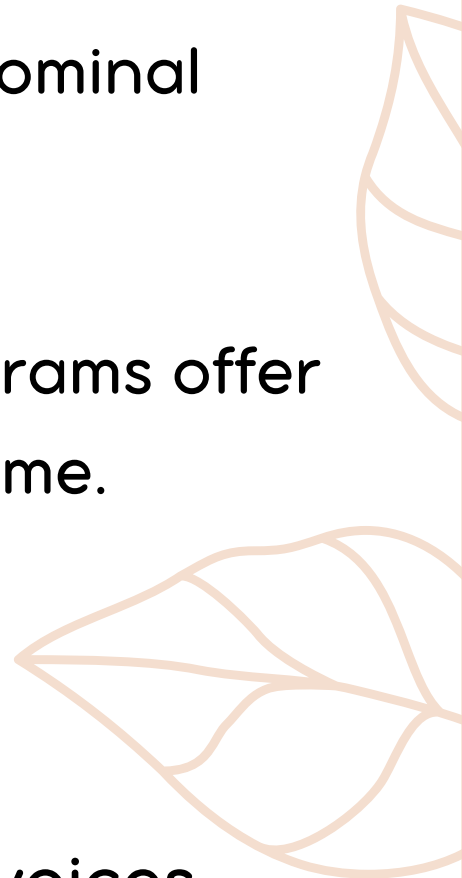

Village Square offers unlimited access to learning rooms across a range of disciplines through a nominal **membership subscription**.

New topics are introduced every week, allowing children to join any class during the month. Our programs offer flexibility and provide diverse learning tracks that can be accessed from the comfort of your home.

We are preparing children for a changing world, one that will soon be dominated by exchange, discourse, perspectives, and opinions- a world that will require strong and clear voices.

Invest in your child's voice today and help them become lifelong learners.

IMPORTANT NOTE

You'll see some courses are offered more than once.

Here's why:

★ They're popular and families love them!

★ We want to provide flexible scheduling.

When learners take the same course more than once, some information will be repeated but the tasks and activities will be different. In other words, each time, they'll be learning something new while reinforcing the old.

TIMINGS

Weekday learning rooms: **6-7 PM**

Saturday learning rooms: **12-1 PM**

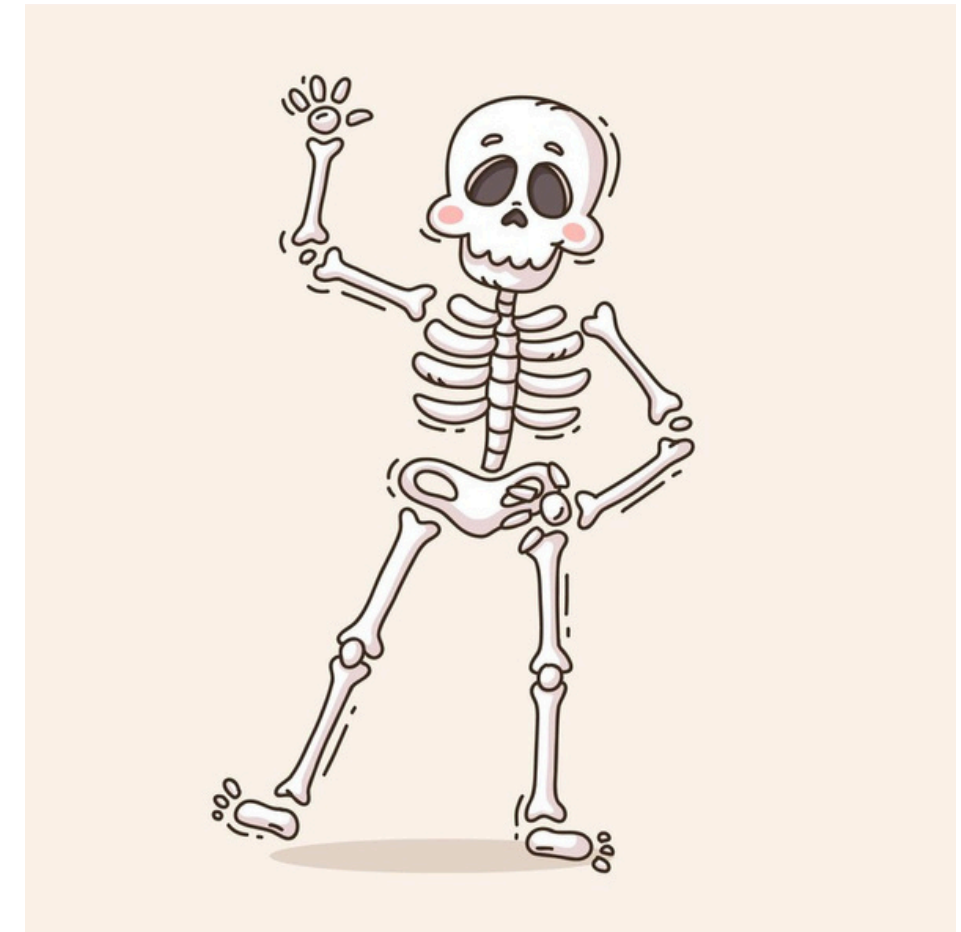

Halaqah Ages 7-9: **7 PM**
Halaqah Ages 10-13: **8 PM**

all times are in Pakistan Standard Time (PKT)

Science & Technology

Bones in Action: What Does A Skeleton Do?

- Many animals have a skeleton, but why do they need it?
- In this exciting and interactive class children will discover the function of a skeleton and why it is so important for humans and animals alike.

Language Arts

Writers Workshop: Imagination in Focus- Writing with Picture Prompts

- They say a picture is worth a thousand words. This writing game encourages participants to let their imagination and words flow.
- Using photo cards as writing prompts students will write a few paragraphs or a short story based on their interpretation of the pictures.

Let's Talk About Books

- Book Club for young readers
- Monthly theme: Arabian Nights
- We are reading: Abou Hassan, or, 'The Sleeper Awakened'.

Art & Painting

Creative Threads: Exploring Yarn Crafting Techniques

- In this creative and hands-on arts course, children will dive into the colorful world of yarn! Students will learn to use yarn to create vibrant art pieces, beginning with simple shapes and moving on to more complex scenes.
- This course encourages creativity, fine motor skills and self expression.

LEARNING TRACKS AGES 7-8

Financial Literacy

Travel Smart: Budgeting For A Winter Vacation

- In this introductory class, children will learn the essentials of budgeting while planning for a fun winter vacation!
- Through engaging activities and discussions, children will explore how to set a budget, prioritize expenses and make smart choices about spending.

Social-Emotional Learning

Social-Emotional Club

November Theme - Know Yourself: Exploring Self Awareness

- Children will explore the concept of self awareness, a foundational skill for emotional intelligence and personal growth.
- Participants will learn to identify their emotions, understand their thoughts and behaviors and recognize how these affect their interactions with others.

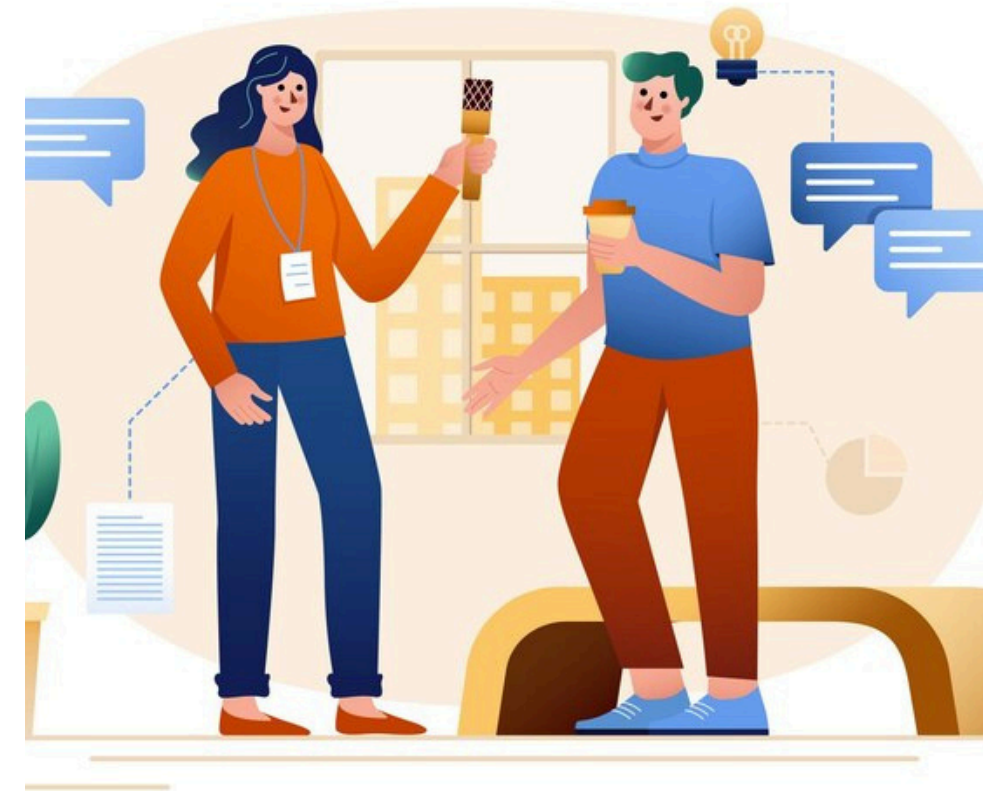

LEARNING TRACKS AGES 7-8

Lifeworthy Learning

Present with Confidence: Exploring Presentation Skills

- In this dynamic and interactive workshop, children will discover the essential skills needed to present their ideas with confidence and clarity.
- Students will understand the basics of public speaking, organizing thoughts and ideas for clear communication, body language for engaging an audience and much more.

LEARNING TRACKS AGES 7-8

Halqaqah - Deen As A Way of Life

November Theme: Duas Made Right

- This month children will explore how and when to make dua (prayer) to Allah.
- We will look at prayers that please Allah and how to increase one's chances of dua fulfillment.

Science & Technology

The Dodo's Last Flight: Understanding Extinction

- Dodos are commonly considered brainless, blundering birds that were poorly adapted.
- However, research has proven that this was not true. What is the real story of the Dodo, and how did they die? This month, we will explore extinction and look at the Dodo as a case study.

History & Culture

Muslim Explorers: Who Was Ibn e Batuta?

- We are setting out on an exciting journey through history as we delve into the life and adventures of Ibn e Batuta, one of the most renowned travelers of the medieval world.
- We will be looking at the key regions that he explored, the impact of his travels and his legacy.

Language Arts

Writers Workshop: Rhymes

Reimagined- Rewriting Nursery

Rhymes

- In this interactive workshop, participants will discover the cultural and historical background of some of their favourite childhood nursery rhymes.
- Students will also imagine alternative creative endings for the poems and rewrite them based on their own imagination and understanding.

Let's Talk about Books

- Book Club!
- Monthly theme: Arabian Nights
- We are reading: The Enchanted Horse
