Village Square By Edopia Online

Edopia Online is a project of **Edopia**, Pakistan's first democratic school, a school that respects children. We believe children learn best when they have control over their learning and when they feel safe.

Aligned with Edopia's vision to create learning spaces that truly belong to children, we introduce **Village Square**: an online members' club for children **aged 7-13**, providing them with the opportunity to learn together and explore disciplines that are not typically covered in traditional schools.

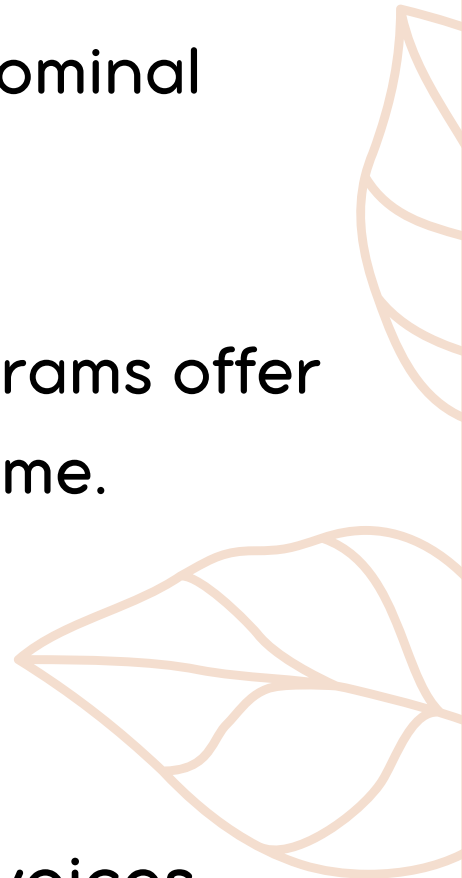

Village Square offers unlimited access to learning rooms across a range of disciplines through a nominal **membership subscription**.

New topics are introduced every week, allowing children to join any class during the month. Our programs offer flexibility and provide diverse learning tracks that can be accessed from the comfort of your home.

We are preparing children for a changing world, one that will soon be dominated by exchange, discourse, perspectives, and opinions- a world that will require strong and clear voices.

Invest in your child's voice today and help them become lifelong learners.

Village Square Workshops (Ages 9-15)

Future Ready: Essential Digital Skills

In a rapidly changing world dominated by AI and computer technology, it is essential for children to develop robust digital skills to succeed academically and professionally. This comprehensive course on Applied Digital Learning equips students with practical knowledge and life-worthy skills. With interactive lessons and hands-on activities, collaborative learning, real world scenarios and problem solving tasks, this course prepares young learners to navigate the digital landscape confidently and responsibly.

Key Topics:

1. Fundamental Computer Skills
2. Web Research Techniques
3. AI Tools for Students
4. Google Apps for Students
5. Presentation Skills
6. Digital Safety

Course Details:

- Start Date: September 3rd, 2024
- Duration: 6 weeks
- Days and Time: Every Tuesday and Thursday, 4-5 PM PKT
- Registration fee: PKR 15,000
- Limited Spaces: Early registration is recommended

Enrollments are OPEN! Visit this link to register: <https://hxjclgn4.paperform.co/>

IMPORTANT NOTE

You'll see some courses are offered more than once.

Here's why:

★ They're popular and families love them!

★ We want to provide flexible scheduling.

When learners take the same course more than once, some information will be repeated but the tasks and activities will be different. In other words, each time, they'll be learning something new while reinforcing the old.

TIMINGS

Weekday learning rooms: **6-7 PM**

Saturday learning rooms: **12-1 PM**

Halaqah will start from 1st September

Halaqah Ages 7-9: **7 PM**

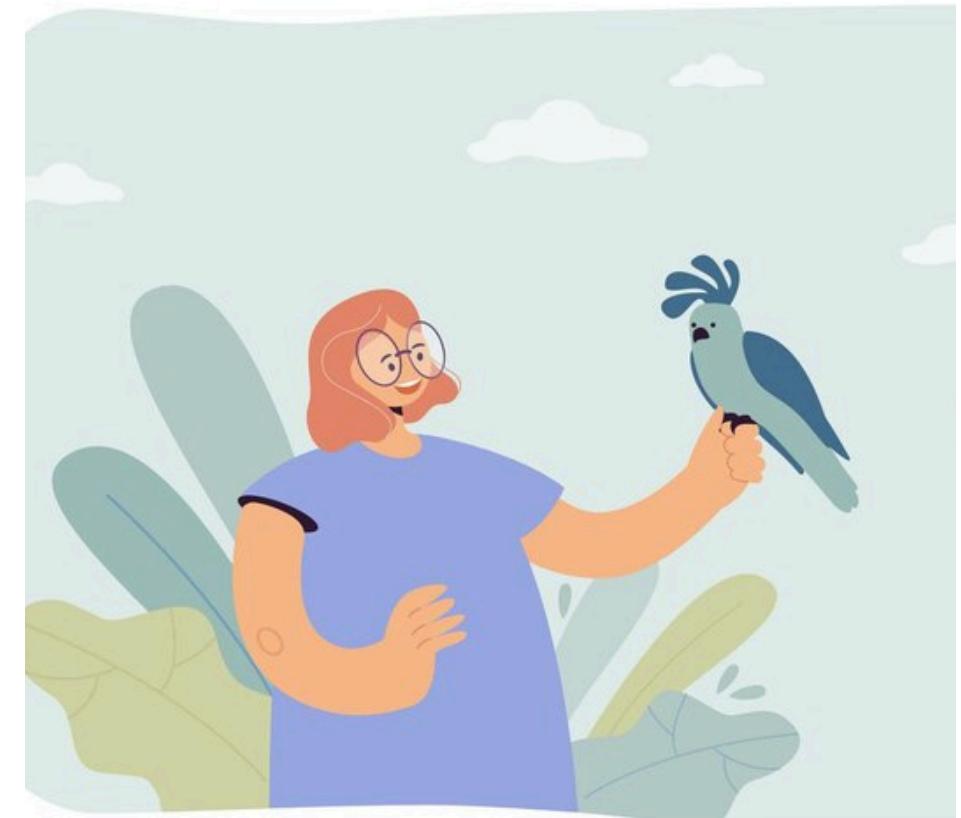

Halaqah Ages 10-13: **8 PM**

all times are in Pakistan Standard Time (PKT)

Science & Technology

Feathers and Squawks: All About Parrots

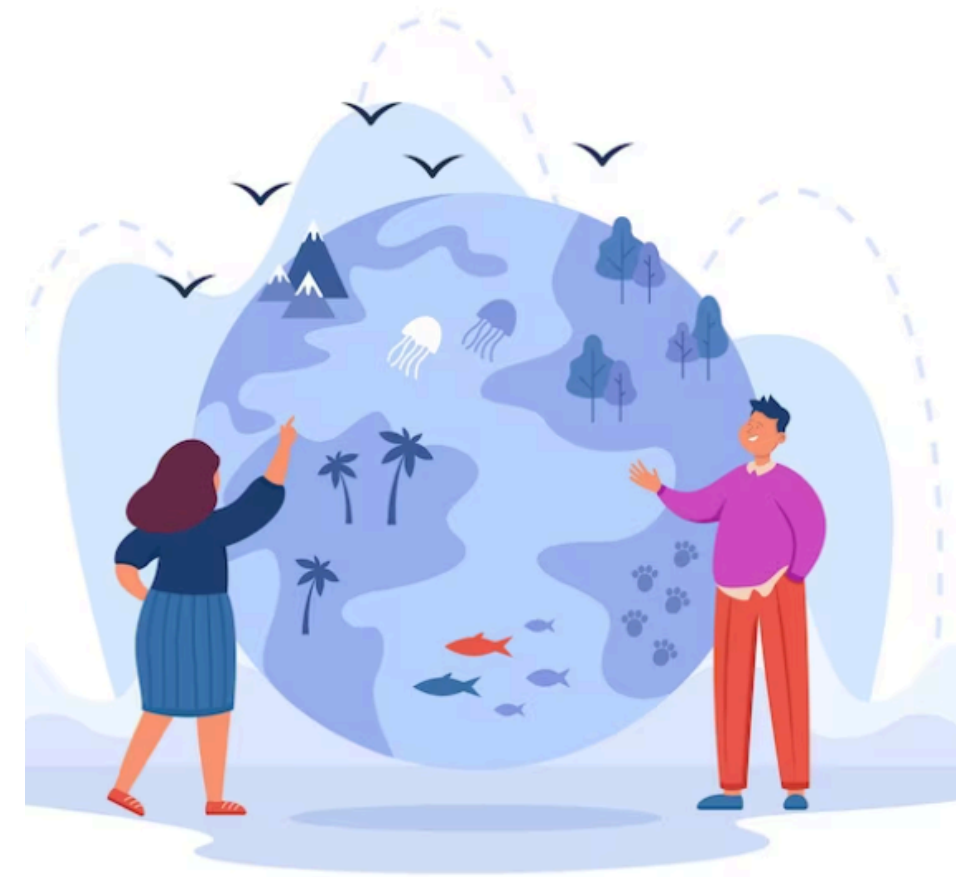

- An exciting journey into the world of parrots.
- Learners will discover features of different parrots, why parrots are distinctive from other birds, and how they are able to mimic human speech.
